Sir Reginald Styles, a high ranking diplomat, is working late at night in preparation for a Conference, upon the results of which depend the peace of the world. Suddenly he is attacked by a mysterious guerilla who attempts to kill him then vanishes like a ghost.

Later the guerilla appears again in the grounds of Styles' house only to be attacked and hunted down by savage alien monsters.

Since UNIT is responsible for the success of the Conference, the Brigadier, Doctor Who and Jo Grant are soon involved. The Doctor's investigations lead him to decide to spend a night in Styles' house - now empty since Styles has flown off in a last minute diplomatic mission.

At the house the Doctor and Jo are attacked by three more guerillas, Anat, Shura, and Boaz. They have travelled through time from the future and are grimly determined to kill Styles.

Jo tampers with one of their time machines and vanishes into the future. The alien monsters appear again and attack the guerillas. They return to their own time in order to escape and the Doctor is carried through time with them.

(He finds himself more than a 100 years in the future in a world ruled by his old enemies, the Daleks, who, with their new ability to travel through time have once again invaded earth, this time with complete success. They rule with the aid of human quislings and with alien monsters as a form of security police. The Doctor finds Jo an honoured guest of the Controller. A human quisling who rules this part of Earth for the Daleks. Jo believes the Controller to be benevolent and is horrified when the Doctor reveals that Earth has become one vast slave-camp, toiling for the benefit of the Daleks. Jo and the Doctor are rescued by the guerillas who now seek their help. The guerillas explain that Styles was responsible for an attempted coup in which top world leaders were killed. This set off a series of wars which so weakened Earth that the Daleks were able to take over with ease. The guerillas believe that if they can journey back through time and kill Styles the wars will not happen and Earth will be strong enough to defeat the Daleks.

The Doctor cannot believe that Styles is capable of murder. Then he realises the dreadful truth. One of the guerillas was left behind wounded, and with a supply of explosives. It was this guerilla who killed the world leaders in his attempt to destroy Styles. Trapped in a temporal paradox the guerillas themselves caused the catastrophe they are trying to prevent.

Jo and the Doctor journey back through time, escaping capture by means of a last minute act of self sacrifice by the Controller. They are pursued back to their own time by the Daleks and in a final desperate battle manage to save the life of Styles and the fellow diplomats, destroying the pursuing daleks and assure a future in which the Daleks will not rule).

We STAY WITH HIM for a moment as he gets nearer to the house. And then he gives one more look over his shoulder and reacts in terror. We don't see what he sees but it is enough to induce a near panic.

He starts to run.

We FOLLOW HIM to a country lane. He hurls himself over a five barred gate and crosses a field.

Still he runs, hotly pursued by some menacing enemy.

The field brings him to the edge of a railway embankment.

He is trapped. He can't run forward and doesn't know whether to go left or right. Below him the embankment is a sharp drop of fifty feet to the lines.

He turns back and then staggers backwards, falling over the edge.

Now we see that he has been fleeing from TWO MONSTERS menacing. Savage. Larger than life. They are humanoid in shape, with alien heads and hands.

On the railway line we PICK UP the BODY OF THE GUERRILLA. The gun beside him.

After a moment ONE of the MONSTERS COMES INTO SHOT. He leans over the DEAD MAN, smiles and then walks away and joins the OTHER.

We FOLLOW them into the mouth of the disused railway tunnel for which the embankment has been cut. As they enter it they disappear from view. Melting into the blackness.

finds his feet on the

few yards from the dark
opening of the tunnel
and looks at it with some
apprehension. Silence.
Berie. He squats down
and takes out the radio. He
starts twiddling with the
knobs. Some static noise
etc., adds to the menace.

SHURA: EV6 to Barle. EV6 to Bagle. Do
you connect?

No reply. SHURA thinks for a
moment, decides to try elsewhere.
But first he goes to a hiding
place and removes a plastic
wrapped package. He opens it
to reveal a couple of egg-shaped
grenades. He checks them, seems
satisfied, begins to re-wrap the
parcel.

SHURA has put his gun on
the ground beside him.

He turns to pick up the gun. A
foot rests beside it.
In sudden panic he looks up.

From his O.V. we see a MONSTER
standing over him. A savage
blow from the MONSTER'S claw sends
him flying, but Shura rolls
over, snatches up his gun and dis-
integrates the MONSTER in a
puff of smoke. Then clutching his
wounded shoulder SHURA staggers into
the Tunnel, snatching up the parcel as
he runs.

BOAZ and ANAT come
tearing round the
corner of the house,
and find monsters
waiting for them.

ANAT tries to hold them
off with her gun,
disintegrating one or
two, but they advance
inexorably.

DOCTOR WHO appears round
the corner of the house
and the MONSTERS turn
their attentions to him.

ANAT and BOAZ seize
their opportunity and
run off towards the tunnel.

The MONSTERS advance on
DOCTOR WHO. He backs
away trying to get BOAZ'S
gun to work.

He succeeds at the last
moment, disintegrates one
of the TWO surviving
MONSTERS. The last
MONSTER raises his gun
to fire.

DOCTOR WHO leaps for shelter.

THE MONSTER advances on the DOCTOR. THE DOCTOR raises his gun to fire back, but there is no result. The alien gun is empty or jammed.

THE MONSTER raises it's gun to finish the DOCTOR off.

Suddenly we hear the scream of tyres, and the rattle of machine gun fire. THE MONSTER falls.

CUT TO:

THE BRIGADIER, KATES, and MERTON in a UNIT JEEP. THE BRIGADIER is at a machine gun mounted on the JEEP.

THE UNIT PEOPLE leap from the JEEP.

DR. WHO: Thank you Brigadier. A most timely intervention.

BRIGADIER: Doctor, what on earth's going on. What was that creature?

DOCTOR WHO: I'll explain later. I'm in a hurry. Excuse me old chap.

DOCTOR WHO leaps in the UNIT JEEP and shoots off after the guerillas.

BRIGADIER: Doctor! Come back at once!

But DOCTOR WHO has gone.

And so you came back into our time
DOCTOR WHO: (TO MONIA)
to kill Styles before he could
carry out his plan.

Yes
MONIA: We have been fighting the
Daleks for years. But it was hopeless.
Eventually we must lose. So we
thought ... what else could we do?

ANAT: We learned through one of our
spies that the Daleks had
to create a time machine. We even
managed to steal a copy of the plans.
Then we built our own.

So that

ANAT: We could go back into history
to the point where things had started
to go wrong.

TV REPORTER: Here in the peaceful
heart of England there will soon
take place what may well be the
most important Summit Conference
of the Century. The peaceful at-
mosphere of this Georgian country
house gives little indication of
the underlying tension of the
occasion... a desperate last minute
attempt to stem the rising tide
of international tension that seems
to be moving the great powers to
the brink of a third world war.....

We see STYLES arrive and go into
the house.

TV REPORTER: (V.O.) Arriving now
is Sir Reginald Styles, who with
his team of government aides has
been working round the clock to
make this meeting possible. Sir
Reginald himself has just returned
from an eleventh hour trip to
Peking where his success in per-
suading the Chinese leaders to
reconsider their walk-out, gave
the first real chance of success
to these talks - talks on which
the fate of the entire world may
well depend.
